Federal Election Commission
Attn: Ms. Eger

In response to your letter. We have ammended our year end report for 2011.

1. We have amended our 1/1 to 6/30 report which clarifies the year to date totals.
2. There was no list attached to the letter regarding employer and occupation information. Our committee uses our best efforts in collecting the missing information.

For collecting information our committee, requests the information at the time solicited, if not received with the contribution within 2 weeks of receipt we follow-up with a letter including a self address stamped envelope. The letter states that this information is required law and provides space to provide the information, they can either return in the envelope provided or they may fax it to use.

3. For Fred Gardner we have moved his refund transaction to Schedule B, note that this is a refund for a prior year contributions and a 2011 contribution. There was also an unitemized refund that was also moved to schedule be from schedule A.

4. We have run a detailed duplicate check of our database to correct aggregate year to date. We are also amending our 1/1/11 to 6/30/11 report o correct year to date figures affected by the duplicate merge. For 2012 we have switched to a different software vendor that allows us to search for duplicate records under different measures which should reduce the appearance of duplicate records.

Regarding Mr. Holmes, because of a refund of \$8000 in 2011 for a 2009 contribution his year to date total reflects a negative.

5. We have reviewed the lists of adequate descriptions and have made updates to our report descriptions for expenditures.
6. We have included descriptions for the 5 transactions that were previously omitted.
7. We have corrected the memo entry to Verizon Wireless to the \$241.95, the correct amount of the reimbursement for Adam Stern.
8. We do not have a non federal account, we have fixed the one transaction that appeared on schedule H4 and have moved it to Schedule B.

Thank You

Kelly Lawler
Treasurer
